and NSD File No. L-00-72.

Dear FCC:

So many of us here in Florida use the Tracfone only in emmergencies. We are paying very high fees for this service now and really object to further costs. We use no other Cell phone plan because we can not afford a monthly fee but we do need to carry thisa phone at all times in case of an emmergency on the roads or a medical emmergency. We would really appreciate some action to bring down this necessary service for all senior citizen.
